A LIST OF WORKS RELATING TO LYCANTHROPY

COMPILED BY GEORGE F. BLACK, PH.D.

This list of works dealing with a terrible form of superstition includes not only the works contained in The New York Public Library but all others of which any record could be found. The brevity of the list justifies the inclusion of material outside of the Library's collection, for the benefit of students of the subject. Somewhat over 75 per cent of the titles are in the Library, and these are indicated by the Library's call number.

An interesting allusion to the werewolf in Scottish folklore is preserved in the records of the Presbytery of Kelso. Under the date of November 6, 1660, it is stated that "Michell Usher, or Wishart, at Sprouston, and Mausie Ker, his wife, complain of John Brown, weaver ther, for calling him a warwoof, and her a witch." I believe this is the only reference to the werewolf in Scottish folklore.

The superstition about the werewolf arose from instances of human savagery, and there can be little doubt that the savage deeds which attended the German invasion of Belgium, France, and Serbia will go far to confirm the peasantry of the invaded provinces in their belief in the existence of werewolves.

Treats of the werewolf in modern Limousin folklore. The werewolf, he says, "is not an avatar of the devil," but that the beliefs here as elsewhere in Europe are "fragments of the magico-religious fear felt by prehistoric peoples for the wolf," a feeling to which is due the lycoty of ancient Greece, Italy, Gaul, etc.
